---

Gary,

I wanted to wait and get Jeff, Derrick and David Crow caught up in the a.m. since they are all back from vacation tomorrow. If this is going to the assessment pretty quickly does it make sense for Derrick to pick up the ER and get any needed input from Ben/Tom ? Derrick is cheaper than both Ben/Tom.

Either way, I recommend we get Daniel Tighe to pull the report together as he is much cheaper (Sci 2 & a very good writer) and he can be involved in the assessment when it takes place.

Sorry for the 'not short answer'. If you have a preference before I talk to them let me know.

Ceci

**Subject:** CES ER Cost Estimate

Gary,

I pulled the hours and costs we have incurred to date (Task 1) and two more tasks (Tasks 2 & 3) to complete the ER deliverable with data.

- Task 1 Response (incurred cost to date about \$60k)
- Task 2 IT/Data Management/Data Validation
- Task 3 Report Preparation and Project Mgmt

Total estimate is approximately \$80,000.

TAT are:

- Water = 5 day
- Air = 1 day
- Soil = 3 day for some analyses and 5 day for other
- Waste = 5 day

Let me know if you want me to send you an official estimate (copying Will and Mike etc).

I am around all weekend working on getting the voucher reviewed so call and I can run through

with you.
